

## BETTER SIDE

It's the bitter pill that you swallow  
The fairy tale made in red  
It's a battle cry that you borrow  
that little voice in your head

Its your swollen pride when you think you got it down  
| In a moments time they'll make you doubt  
It's everything they never told you  
It's everything they'll never show you

There's a better side to you and a better side to me  
And the better side of everything is positively free  
There's a better side of me the a better side of you  
all I got is absolutely nothing...

Make a smile cry, turn a lazy eye  
On another man, understand  
Is this your final destination?  
Hard as stone, as sharp as glass  
You never slow down  
You'll find the pieces and pieces all over

There's a better side to you and a better side to me  
And the better side of everything is positively free  
There's a better side of me the a better side of you  
all I got is absolutely nothing...

## I DON'T MIND

Tuesday night you say I'm sorry for what I don't know  
As if I should care  
A useless observation leaving me nowhere  
Screaming in the front yard while the neighborhood  
(just) stares

You take a shot in the dark  
Running to the backyard to  
Take the trash out, take the trash out

I don't mind what you say  
You never gave a shit about me anyway  
And I don't care what you do  
So long as it's the end of me and you

I've seen him on the TV screen  
I heard all about your quote un quote fantasy  
Another useless observation leaving me nowhere  
Screaming in the front yard while the neighborhood  
stares

You take a shot in the dark  
Running to the backyard to  
Take the trash out take the trash out

No, I don't mind what you say  
You never gave a shit about me anyway  
And I don't care what you do  
So long as it's the end of me and you

Cursed in kindness, your happiness is overrated  
Cursed in kindness, and everything is so frustrated and  
overrated

No, I don't mind what you say  
You never gave a shit about me anyway  
And I don't care what you do  
So long as it's the end of me and you  
The end of me and you

## CHRISTINE (2001 VERSION)

Do you remember? Did you really think it would be like  
this?  
Cuz when you walked I heard the talk  
Do you find it funny now that its over?  
Are you looking back over your shoulder do you think  
about me?

And so your friends say I haven't been around  
Who need friends when you spend most your time  
falling down  
You said it's over cuz you said your thru  
But this aint over, so think it over, think it over

Christine think of me and this time around  
Step in the magic, the moment, to a place that's true  
Turn me upside down  
Christine think of me, don't let me down  
I swear the magic, can bring us to a place that's true  
To the place that we found

Now this is crazy, are you for real  
Then why is everything such a big deal  
Why you gotta treat me like that and shut the door  
If you could see all the things I want to be  
Than this aint over, so think it over, think it over

Christine think of me and this time around  
Step in the magic, the moment, to a place that's true  
Turn me upside down  
Christine think of me, don't let me down  
I swear the magic, can bring us to a place that's true  
To the place that we found

La da de da, ba da de da, ba da de bum bum de da da  
de

## BOUNCE

There's a time and a place where nothing ever phases  
you  
You got nothing to prove  
With a will there's a way your finding that its so easy to  
do  
The things that you do

Do you know how they go, those who tread so lightly  
Divine in the course of fortune  
If you look you can see, they shine so brightly  
Along that path they're waiting for you

You can find me, bouncing around, upside down,  
everywhere  
So look around me, its something I've found,  
Anything's possible

There's a time and a place where nothing ever phases  
you  
You got nothing to lose  
Got your will, got your way, your finding out its easy and  
new  
In everything you do

You can find me, bouncing around, upside down,  
everywhere  
So look around me, its something I've found  
Anything's possible

Shine your light, move your head  
Lose your sight and see what's not around  
It's in your head stuck in those plastic eyes  
see the light, its coming around again

You can find me, bouncing around, upside down,  
everywhere  
So look around me, its something I've found  
Anything's possible

## ARE YOU WITH ME NOW?

Take the keys lets go for a ride  
We've been around that block so many times  
Come just as you are  
We'll leave this troubled place behind

Cuz when I saw you out the other night  
You walked with him, but I didn't think it would fly  
Always been a little frayed at letting it show  
Now I'm afraid of letting you go

Its all right, did you think that you could just stop this  
now?  
All right, anything for you, if you'd just show me how  
Tonight, I've gotta know if your still with me now  
Are you with me now?

I remember the days kickin' back in your brother's car  
Skipping school, So cool, getting high  
Now everything's crazy and I can't take much more  
If you were with me now then you'd fight for us now

Its all right, did you think that you could just stop this  
now?  
All right, anything for you if you'd just show me how  
Tonight, I've gotta know if your still with me now  
Are you with me now?

Stagger back and forth, each day away from you  
Stagger back and forth, there's nothing I won't do  
I fight these feelings for you, what you gonna do  
Are you with me now? Are you with me now?

Its all right, did you think that you could just stop this  
now?  
All right, anything for you if you'd just show me how  
Tonight, I've gotta know if your still with me now  
Are you with me now?

Are you with me now?

## EVER AFTER

Try thinking of someone else other then yourself for a  
change  
Try slipping the shoe on to one of your feet to see if that fits  
And maybe recognize for a moment that the world  
revolved around the sun and not your head  
Realize there's a bigger picture other than the one hung  
upside your bed

Some things won't change  
The one thing I've gained  
Happier everafter

How long, how high would you climb for that bit of  
something?  
How low, how far would you dive to make it real, to find  
out for yourself?  
Consider the intentions and all the things you never  
mentioned  
Break a promise for control  
Watch your attention bleed a cool disposition  
Just you watch me unfold

Some things won't change – do you crawl for your  
master?  
The one thing I gained, this boy will never be the same  
and the one thing that has changed  
A happier everafter

Try thinking of someone else other then yourself for a  
change  
Try slipping the shoe on to one of your feet to see if that  
fits  
Now how does that feel?  
And maybe recognize for a moment that the world  
revolved around the sun  
and not your head  
Realize there's a bigger picture other than that one hung  
upside your bed

Some things won't change – do you cum for your  
master?  
The one thing I've gained, this boy will never live in  
shame  
Your one thing that's changed  
And I'm happier everafter

Everafter...

## YOU NEVER KNOW

Eyes that hide in the shadows  
Dark eyes that hide in the shade  
When/as your luck runs hollow  
One finger points the escape

if you ever wonder why, if they ever wonder why  
if you wondered why  
(You'd have to) realize

You never know what your gonna get,  
You never know what you're gonna get, until you get it

Every man has a reason  
Each face has its own game  
As you look on your shoulder  
to see it coming back again  
the past will trade itself for a future told  
just walk on me to find yourself  
(they're) making the rounds

So if you ever wondered why  
as if they ever wonder why  
if you wondered why  
Just to save your face

You never know what your gonna get,  
You never know what your gonna get, until you get it

Circling closer than you know  
Circle in closer as it grows  
Circle in closer than you ever wanted to...

You'd never know, you'd never know  
What you never know you'll never know  
Expect it when least expect it  
You never know what your gonna get

## NOW

No explanation it's just the way that I feel  
No other place to be, I'd rather be here  
Never want to come down  
Hey you want to see me fly?

Better write this down,  
Gonna paint the walls, see the bigger picture  
Better spend it now than save it for some rainy day

So even after all that, when we might have changed  
There's still no other face I'd rather be near  
Never want to see you down  
Ever feel like flying?

Better write this down,  
Gonna paint the walls, see the bigger picture  
Better spend it now than save it for some rainy day

Never want to come down x3  
Wanna see you come, wanna feel you come  
Wanna hear you come

Better write this down,  
Gonna paint the walls, see the bigger picture  
Better spend it now than save it for some rainy day

(Rain, rain go away, come back another day)

## SAY

Say, wait  
Wait a minute there  
It's taking its turn again  
I thought maybe you'd understand

Hey, wait  
I'm not done with this  
Don't turn your back on the things  
We'd once called bliss

Our heaven held a lifetime, we spent it in a day

Say, wait  
And stay with me the night  
For each and every piece of this  
I'm puzzled by the morning kiss

Hey, still  
You can't be so sure  
Can you walk off on your own?  
And rise above the sinking stone

Our heaven held a lifetime, we spent it in a day

O.k., then  
You trade permanence for change  
A harbor for a raging sea  
Swallowed deep inside

Hey wait  
I'm not done with this  
Don't turn your back on the things  
We'd once called bliss

## HAPPY

From a distance the heat melts the sidewalk street  
The summer sun sits back lazy, breathes deep  
The traffic slows for no one, runs into the city that never  
sleeps  
The summer shuffle and the scuffle downtown on Main  
Street  
Look through a window she is sitting there waiting for  
me  
I catch her eyes and its no surprise she's smiling back  
at me  
Step through the hall and meet a waterfall rushes over  
me

Such a fine situation why are you uptight?  
Is there anyone home do you sleep at night?

Do you find you're baby loves you, are you happy?  
When she's with you, so happy? Are you crazy and  
happy?  
And could you ever ask for more?

She's like a rose always in bloom for me  
She always knows just what to say and how to make me  
feel  
On any day when I just can't say she can roll three  
words back silently  
Just so you know my heart just rolls over and over me

Do you find you're baby loves you, are you happy?  
When she's with, happy? Are you crazy and happy?  
And could you ever ask for more?

Such a fine situation why are you uptight?  
After 29 years you'd think you'd get it right  
When all and all comes down it feels so right

Do you find you're baby loves you, are you happy?  
When she's with, happy? Are you crazy and happy?  
And could you ever ask for more?

Sha la la la la la la....

### TRIPPED AND FALLEN

So much for the summer time waiting another year  
To taste it so close, yet fall so behind  
forever ruled by fear  
And so I run and here I hide  
alone in this crowded room  
But I'm chasing me down another try  
And turning all the wheels

Tripped and fallen  
Could you help a man, would you help a man?  
Whose stripped and losing  
everything fades

There's still room for me  
I dream I riding high above the sinking tide.  
I'll swim my way back to the bank  
Over the edge where the path divides  
To meet you on the other side  
Hand in hand we'll walk the line

Tripped and fallen  
Could you help a man, would you help a man?  
Whose stripped and losing  
everything (everything) fades

Tripped and fallen  
Could you help a man, would you help a man?  
Whose stripped and losing  
everything (everything) fades

all lyrics written by doug segree, c: 2001
